

Additives for effective Solutions

RimCleaner for Car Wash Limit

623 705 – 25 Ltr.

Special cleaner for all alloy and steel rims. With maximum gentleness on surfaces, even the most stubborn dirt like brake dust, oil deposits and road grime are removed residue-free. Free of phosphates and acids.

HydrogenPeroxide Limit

621 700 – 25 Ltr.

Deployed to enrich the washing water with active oxygen and for the chemical/biological treatment of the water circulation. It eradicates problem odours. By continual addition it works preventively. Bio-degradable.

Workshop and Tile Cleaner extra strong

614 705 – 25 Ltr.

Special product for cleaning tarpaulins, partition walls, washing brushes, installation components and all ceramic tiles. It dissolves wax, oil, lime scale deposits and other dirt which cannot be washed off by water alone. After treatment these can all be washed off effortlessly and gently.

Caustic Soda Solution (25%) Limit

551 700 – 25 Ltr.

Increases the pH-value in waste water recycling plants.

Flocculant Limit (Sedimentation Aid)

609 705 – 25 Ltr.

For cleaning brackish recycled and waste water in waste water reclamation plants. This works by binding the impurities contained in the water and depositing them by flocculation.

More Washes – Better Results – Satisfied Regular Customers

Not to be ignored!

SONAX promotion for your installation. Proactive, strong colours for a high recognition potential. Emotional, positive pictorial statements and an unambiguous message. This is how SONAX car washes distinguish themselves, and distance themselves from the competition. In words, pictures – and naturally in the wash quality!

That's why more customers will wash their cars at your premises. And the visibly and perceptibly better wash results will automatically generate satisfied and regular customers.

How to get the message to your customers:

Banner as transit advertising on a fence or other visible locations.

Promotional Posters

Ideal on vending machines for special promotions, which SONAX will provide for you, e.g. giveaways for vehicle care or cleaning. That strengthens customer loyalty!

Various Header Boards and Posters

Every petrol purchasing customer is also a potential car wash customer! Activate the desire for a premium car wash when filling up. Here, your customer has plenty of time to read the message.

Flag

The eye-catching design of the flag appeals to the customer even from a distance!

All promotional items are available in German wording or as open, editable data files for local reproduction.

High Pressure Pre-wash

DirtDissolver with Softener Limit

605 705 – 25 Ltr.

605 800 – 60 Ltr.

605 900 – 200 Ltr.

Alkaline detergent, mildly foaming and phosphate free. Heavy oil and grease deposits, brake rubbings, insects (chitin) and similar grime are quickly and thoroughly removed. Also ideal for use in the catering sector and for cleaning campers.

Prewash Ultra Power

625 705 – 25 Ltr.

625 800 – 60 Ltr.

For removing all organic dirt such as oils, grease, wax and protein. Suitable for all hard surfaces such as plastics, ceramics, porcelain, glass, enamel, metal and concreted areas, various types of floor coverings, facades etc. Ideal for washing engines. Can be used in self service installations as high pressure cleaner.

Cleaning Powder for self-service Dosage Equipment

525 700 – 25 kg

Alkaline detergent for use in high pressure cleaning equipment. Rapidly removes extreme dirt of all types residue-free, without leaving a grey haze. The product dissolves itself easily and residue free in water.

Foam and Shampoo

ActiveCleaningFoam Concentrate Limit

Citrus: 608 705 – 25 Ltr.

608 800 – 60 Ltr.

Energy: 618 705 – 25 Ltr.

618 800 – 60 Ltr.

Powerful dirt dissolving stable detergent foam with highly active foaming power. Absolutely ideal for the brush washing cycle in self-service installations. Can also be deployed as shampoo and as a neutral insect remover. Available in the fragrances Citrus and Energy. Phosphate free.

GlossShampoo with Water Softener Limit

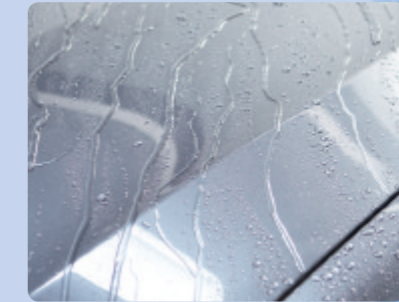

600 705 – 25 Ltr.

600 800 – 60 Ltr.

Highly concentrated special detergent for use in high pressure washing equipment. Cleans quickly and thoroughly, with intensified foaming and cleaning power. Phosphate free.

Drying and Conserving

BrilliantWax with Wax Fragrance Limit

601 705 – 25 Ltr.

601 800 – 60 Ltr.

Can be deployed both as hot wax and cold wax. For optimum paintwork conservation in high pressure self service installations with a wax cycle. The high gloss film quickly spreads over the vehicles surface to provide excellent all-round protection with conservation and water run-off effect. Rapid dispersal. Optimum drying. Hydrocarbon free.

BrilliantDryer Limit

602 705 – 25 Ltr.

602 800 – 60 Ltr.

Chemical drying aid with special surfactants for reducing the surface tension of the water. This induces rapid dispersal of the water film, and produces the water run-off effect for optimum drying. Conserves the paintwork after the car wash and enhances the shine. Hydrocarbon free.
